Micron and Micron Foundation Donate to Japan Disaster Victims and Reconstruction Efforts

BOISE, Idaho and NISHIWAKI, Japan, April 7, 2011 - Micron Technology, Inc., and the Micron Technology Foundation announced today a combined donation of US \$625,000 to Japan for relief efforts in response to the March 11 earthquake and tsunami.

"We hope the best for the people of Japan as they start the process of recovering from the earthquake and tsunami. Both our Foundation and Company are contributing money and actively working with some of our Japanese team members to help however possible," said Steve Appleton, Micron Chairman and CEO.

The Company is donating US \$500,000 to support relief efforts organized by its Japanese customers, while the Micron Foundation will donate US \$125,000 through a local non-profit organization, the Kobe Shimbun Public Welfare Organization. In addition, Micron's global team members are assisting the recovery efforts through individual donation efforts.

Micron and the Micron Foundation focus on improving the quality of life in the communities in which its team members work and live.

About Micron

Micron Technology, Inc., is one of the world's leading providers of advanced semiconductor solutions. Through its worldwide operations, Micron manufactures and markets a full range of DRAM, NAND and NOR flash memory, as well as other innovative memory technologies, packaging solutions and semiconductor systems for use in leading-edge computing, consumer, networking, embedded and mobile products. Micron's common stock is traded on the NASDAQ under the MU symbol. To learn more about Micron Technology, Inc., visit www.micron.com.

Micron's manufacturing facility in Nishiwaki, Japan, uses advanced process technology to fabricate leading-edge memory devices and plays a significant role in Micron's growing international presence. Micron also has offices in Tokyo, Tsukuba and Osaka providing design, sales and technical support to our customers throughout Japan.
