

Micron Technology Appoints Michael Rayfield as Vice President of Wireless Solutions Group

September 18, 2012 at 12:00 AM EDT

BOISE, Idaho, Sept. 18, 2012 (GLOBE NEWSWIRE) -- Micron Technology, Inc. (Nasdaq:MU), today announced that the company has named Michael Rayfield, vice president, Wireless Solutions Group.

Rayfield will be responsible for managing all aspects of Micron's Wireless Solutions Group that provides DRAM, NAND Flash, NOR Flash and PCM memory solutions, including multi-chip packages, to the global mobile device market.

With 15 years of executive management experience and nearly 30 years in the industry, Rayfield worked for the past seven years as the vice president and general manager of NVIDIA, Inc.'s Mobile Business Unit where his team created advanced computer on a chip technology and won key mobile industry reference designs.

"Micron has the industry's broadest set of innovative memory products. Mike has the direct industry experience, relationships and leadership skill set that will help us leverage this portfolio in serving our mobile customers," said Micron President Mark Adams.

Rayfield's professional background also includes serving in executive sales, business development and operations roles at Stretch, Inc., Reshape, Inc., Cisco Systems, Growth Networks and Texas Instruments. He began his career in various technical sales roles with Texas Instruments.

Rayfield holds a bachelor of science degree in Electrical Engineering from University of Vermont.

Micron Technology, Inc., is one of the world's leading providers of advanced semiconductor solutions. Through its worldwide operations, Micron manufactures and markets a full range of DRAM, NAND and NOR flash memory, as well as other innovative memory technologies, packaging solutions and semiconductor systems for use in leading-edge computing, consumer, networking, embedded and mobile products. Micron's common stock is traded on the NASDAQ under the MU symbol. To learn more about Micron Technology, Inc., visit www.micron.com.
