

Micron Embedded Solutions Webcast: Micron Memory for the Interconnected World

February 14, 2013 at 12:00 AM EST

BOISE, Idaho, Feb. 14, 2013 (GLOBE NEWSWIRE) --

What Micron Technology, Inc. (Nasdaq:MU), one of the world's leading providers of advanced semiconductor solutions, today announced that Micron's Tom Eby and Jeff Bader will lead a live webcast to discuss the increasingly significant role of memory solutions in enabling key technology trends that are shaping today's interconnected world.

Mr. Eby will present Micron's view of these trends—including big data, mobility, and machine-to-machine interactions—and our strategy to address key opportunities in the embedded market. He will also discuss how memory is playing a key role in the innovation of the Internet of Things—from mobile environments to automotive and industrial systems.

Mr. Bader will also give an embedded technology update and present case studies specific to the embedded market.

When Thursday, February 21, 11:00 a.m. ET (8:00 a.m. PT)

Who Speakers:
Tom Eby, Vice President and General Manager of Micron Embedded Solutions
Jeff Bader, Vice President of Micron Embedded Solutions Marketing

Where Live webcast: <http://investors.micron.com/events.cfm>
