

## Micron Technology Appoints Thomas Snodgrass as Vice President of System Solutions

October 8, 2013 at 12:00 AM EDT

BOISE, Idaho, Oct. 8, 2013 (GLOBE NEWSWIRE) -- Micron Technology, Inc. (Nasdaq:MU), today announced that the company has named Tom Snodgrass, vice president, System Solutions.

Snodgrass will be responsible for managing Micron's System Solutions business focused on delivering enterprise-class solutions to the market using Micron NAND Flash and DRAM memory.

Snodgrass brings to Micron more than 30 years of technology experience in various senior management roles across several leading companies, including the past 13 years managing storage solutions at PMC-Sierra. Snodgrass served as PMC-Sierra's vice president of Corporate Strategy and Corporate Technology from 2011 to 2013, and he worked as the company's vice president of product development, Enterprise Storage Division, from 2003 to 2010.

"We are excited to have Tom join the management team at Micron," said Micron President Mark Adams. "Given his strong industry experience, he will bring a unique perspective to our systems-level focus serving the enterprise market."

Snodgrass' professional background includes serving as vice president of engineering at AANetcom, ATI and Tseng Labs prior to joining PMC-Sierra. He also worked in various technical roles at AT&T, Honeywell Defense Systems, McDonnell Douglas and AT&T Bell Labs. Snodgrass holds a master's degree in Electrical Engineering from Purdue University and a bachelor's degree in Electrical Engineering from the University of Missouri.

Micron Technology, Inc., is one of the world's leading providers of advanced semiconductor solutions. Through its worldwide operations, Micron manufactures and markets a full range of DRAM, NAND and NOR flash memory, as well as other innovative memory technologies, packaging solutions and semiconductor systems for use in leading-edge computing, consumer, networking, embedded and mobile products. Micron's common stock is traded on the NASDAQ under the MU symbol. To learn more about Micron Technology, Inc., visit [www.micron.com](http://www.micron.com).
