Micron Technology Names Trevor Schulze as Chief Information Officer

BOISE, Idaho, July 8, 2015 (GLOBE NEWSWIRE) -- Micron Technology, Inc. (NASDAQ:MU), today announced it has appointed Trevor Schulze as Chief Information Officer (CIO).

Schulze, who most recently served as Broadcom's corporate vice president of IT, brings to Micron more than 25 years of IT, operations and product development experience.

"As we continue to develop innovative new products serving an expanded set of customers in diversified markets, our use of information is poised to grow significantly in importance and opportunity," said Micron President Mark Adams. "We are excited for Trevor to lead our IT organization and support our global operations."

Prior to Broadcom, Schulze worked as the corporate vice president of IT at Advanced Micro Devices, where he oversaw global engineering and infrastructure solutions. He also held various IT and engineering management roles at Cisco.

About Micron:

Micron Technology, Inc. is a global leader in advanced semiconductor memory systems. Micron's broad portfolio of high-performance technologies—including DRAM, NAND and NOR Flash—is the basis for solid state drives, modules, multichip packages and other system solutions. Backed by more than 35 years of technology leadership, Micron's memory solutions portfolio enables the world's most innovative computing, consumer, enterprise storage, networking, mobile, embedded and automotive applications. Micron's common stock is traded on the NASDAQ under the MU symbol. To learn more about Micron Technology, Inc., visit www.micron.com.
