## **Micron Technology Appoints Rajan Rajgopal as Vice President of Quality**

BOISE, Idaho, Dec. 2, 2013 (GLOBE NEWSWIRE) -- Micron Technology, Inc. (Nasdaq:MU), today announced that the company has named Rajan Rajgopal, vice president of Quality.

Rajgopal will be responsible for overseeing all aspects of Micron's quality systems including manufacturing, customer program management and product ramps. He brings more than 25 years of experience to Micron and most recently served as the vice president of Global Quality and Customer Enablement for GLOBALFOUNDRIES in Singapore.

"Micron continues to evolve as a memory business driven by systems-level solutions, and quality plays a heightened role in serving our valued customers," said Micron President Mark Adams. "We are excited to have Rajan join our team and leverage his experience in serving our customers in an increasingly diversified set of application segments."

Rajgopal's professional background includes serving in multiple executive and management positions involving customer programs, manufacturing operations and engineering at GLOBALFOUNDRIES, where he had worked since 1995. He also worked as a member of the technical staff at the Texas Instruments Semiconductor Research and Design Center in Dallas from 1989 to 1995. Rajgopal, who has received six patents and more than 20 publications, holds a bachelor of science in Electrical Engineering from the University of Texas at Austin and a master's in Electrical Engineering from the University of Maine, Orono.

Micron Technology, Inc., is a global leader in advanced semiconductor systems. Micron's broad portfolio of high-performance memory technologies—including DRAM, NAND and NOR Flash—is the basis for solid state drives, modules, multichip packages and other system solutions. Backed by more than 35 years of technology leadership, Micron's memory solutions enable the world's most innovative computing, consumer, enterprise storage, networking, mobile, embedded and automotive applications. Micron's common stock is traded on the NASDAQ under the MU symbol. To learn more about Micron Technology, Inc., visit [www.micron.com](http://www.micron.com).
